

Artists of the Month

Revised selection plan:

During the past two years we have often had less than the number of participants to select from meaning we didn't vote for work going in sites and I have had to ask others to fill the openings for the month.

We could eliminate a few sites, yet that doesn't help promote our organization in the communities.

A solution was offered and I have thought it through as to how it could be implemented as follows.

The basis of the idea is to have only 6 artists selected each month and have those six move their art piece to a new location for a second month. The second month we will select 6 new members to place their art in the first six locations the month before members just left.

During the non-meeting months we will have the last voted members move to the second set of locations and the board members will fill the emptied six locations for the next month.
